"The Coin Machines Merry-Go-Round"

By Bill Gersh

PHONO WAR COUNCIL

In our past (Spring Special) issue we recommended the creation of a phono "war council" to meet in regard to the Petrillo record ban. This has already won the approval of many phono men who feel such a meet is a necessity. The ban on recordings is now in its 8th month and from all indications will continue on indefinitely unless something is done by the phono men themselves to bring the situation to a head.

The events since the ban are worth reviewing. The record manufacturers met with Petrillo and then wrote advising him thoy could not accept his new "social philosophies" and, in that same letter, also advised him that as far as the "juke box" was concerned, this was his (Petrillo's) problem. No nationally representative group of coinphono operators, jobbers, distributors or manufacturers have as yet met with Petrillo.

After the AFM board meeting in Chicago, Petrillo turned down the records mfrs. and advised them that any further negotiations would have to come from them. The record mfrs. called a meeting at the offices of Columbia Records this past week. (Remember, that during all these negotiations there hasn't as yet been direct mention of the coinphonos and their problems). One of the progressive, smaller record mfrs. (Musicraft Corp.) attempted thru their president, Paul Punor, to settle with Petrillo and they, too, have just been turnod down. Petrillo wants a complete settlement with all the recorders.

Regardless of what you personally think of Petrillo, his principles and his methods, the fact remains that no new records are being manufactured and that he has proven himself sufficiently powerful to maintain the ban he imposed, regardless of the statements of many national leaders (such as Elmer Davis of OWI), regardless of the many editorials which have been printed in the nation's press and regardless of Thurman Arnold and even the Senatorial Investigating Committee.

The music operators must have new records to retain the high averages they have attained. New recordings are also necessary to help build and maintain the morale of the armed forces thruout the nation who look to coinphono music for relaxation and stimulation, as Elmer Davis of OWI stated. A "war council" of phono men is most necessary to get together the leaders of the nation's automatic music industry and have them meet with Petrillo and discuss just what he wants from this industry so that some workable basis can be reached. This will be, if it comes into being, the first and only meeting of coin operated music men with Petrillo. There hasn't been any such meet to this date. It is also well to recall here that the war busy phono mfrs. themselves seem unable to get together in a meet with Petrillo at this time. At least so far they haven't met with him nor is there any indication that they will.

Therefore, the distributors, jobbers and operators of automatic music should arrange for a "war council" to make the necessary plans, choose a committee to meet with Petrillo and then decide what is best for all concerned. Many leading coinmen are in favor of such a meet. They believe that this is the one and only way they will ever learn where they stand. It may even be possible for coinmen to arrange for the records they need to be made exclusively for coinphonos. Let the radio transcription and other recorders solve their own problems with Petrillo. It is also understood that Petrillo favors the coinphonos for he realizes they play to larger audiences and his plans are so arranged that records will be manufactured separately for the coinphonos and entirely different recordings made for the home market. These latter will not be mechanically suitable for the coinphonos, it is reported.

FORBES ON COIN MACHINES

Subscribers to The Cash Box who read our "Predictions Of Things To Come" away back in our New Year Special and also in our past Spring Special issue will not be surprised at the feature article that appeared in Forbes' Magazine (March 15 issue) wherein the writer (H.S.Kahm) recommends to the readers of that publication that one of the most lucrative fields awaiting their high power finance and distribution methods is the coin machines business, and also tells them a few facts concerning the industry that are, more or less, something which all of us, who have been in this industry for some years, know all about.

To aid the hard work of those men who made this a most profitable division of the amusements field there will now enter the increased finance of large, international banking institutions as well as additional capitalization from smaller sources who will enter into the distribution, jobbing and operating pictures. Most of us believe that this industry, after the war, is in for the biggest boom it has ever enjoyed. We also realize that this boom will only be made possible by the entrance of what this industry prefers to call, "new blood".

But, this time the "new blood" will not only mean coin machine operators being created overnight, it will mean bankers and manufacturers and distributors who have been closely watching this field and who now have many plans under way as to just where they will fit most profitably into the picture in the post war era.

Kahm, in this article in Forbes, brings out many reasons and facts why and how the average business man can profit in the coin machines industry. He does not advise his readers that the fatality rate in the coin machines industry is just as great as in all other industries in the amusement field. Each new man who enters into this field and fails still leaves something of definite value behind him. Regardless of how many may have become interested in investigating this industry because of this article the majority will be out of this business in short order. That goes for potential financiers, distribs, jobbers, mfrs. and operators. Only about 1 out of every 20 ever make the grade.

To any of you who may have become alarmed over this Forbes' article we suggest you rest easy as far as the domestic market is concerned. These new men who will enter into the picture after the war will all be helping to build this industry to greater power and will, therefore, help make this a better business. As far as the international markets are concerned, this will take men of greater knowledge of world conditions than is now contained in this industry. The foreign market will prove extremely profitable, as we have stated many times in the past. This is the one field that has the greatest potentialities. The coin machines market that has already accrued in Great Britain alone could easily take all the production of the present known mfrs. in this industry for many, many months. And this is but one of the world's great markets for coin machines.

Forbes' Magazine has actually helped with this feature article about the coin machines industry as an investment paradise for business men. For if powerful financiers do become interested and make substantial investments they will most certainly not allow their investments to be jeopardized by local police chiefs, sheriffs or any other politicos.

LAND ARMY OPENS FARM SPOTS

The creation of a "land army" this summer, by presidential decree, means the opening of a tremendous number of profitable farm town locations everywhere in the country. With swollen populations, which such a land army will create, the need for relaxation in the farm towns will prove extremely profitable to coinmen.

A few issues ago we advised that some coinmen were already surveying many of the smaller farm town spots in their territories. Now, more than ever, it is a surety that these will prove profitable and therefore if you haven't already done so it is decidedly to your advantage to tie up the locations where these farm workers will gather.

Farm town play action is at low ebb during the week, tho with city people being engaged by the farmers this may not prove the case this year, for there is no doubt that this city labor will probably seek the town each evening. The real play is over the week-end. Beginning with Saturday afternoon it continues on into the wee hours of Sunday morning. Usually the taverns, lunch wagons and drug stores are the hot spots. Some of the best locations in the farm country will be found at out-of-the-way road intersections.

HONORABLE MENTION

Ben Fireman (Automatic Sales Co., Philadelphia, Pa.) deserves our Honorable Mention Award because of his one man campaign to help Russian War Relief. Not only did Ben spend two weeks collecting over $1,300. for this worthy cause, but he also hit upon the unique idea of installing a bar in his home, charging for the drinks, the money going to Russian War Relief.

Joe Calcutt (The Vending Machine Co., Fayetteville,N.C.) who we have just learned is one of his state's most outstanding supporters of many leading and worthy charities. The information came to us from close friends of Joe's who also advised us that he takes care of much local charitable work which is not generally known.

Ed. Ravreby (Owl Mint Machine Co., Boston, Mass.) for his outstanding work with one of the largest charitable organizations in the country. Ed. raised over $10,000 in the last drive and hopes to double that next time.

PAT-ON-THE-BACK DEPT.

This past week we received two letters we felt should be read by all subscribers. The first letter is from L.M.Kidd of Automatic Amusement Co., Richmond, Va., who, up to that time, had been a subscriber for but ONE issue. He writes, "After receiving your several letters with reference to our taking a subscription to The Cash Box we finally did so. Now find that we made a good investment for we found your issue of the 16th most interesting and helpful, and have been able to purchase some machines at a saving which more than offset the cost of the subscription."

The second letter is from Warren H. Taylor of Mills Sales Co., Ltd., Oakland, Cal. who writes in part, "Just returned from a trip thru Utah and the inter-mountain territory where, I must say, conditions are really excellent and a high class type of men represent the industry. It may interest you to know that all those I contacted on my recent trip looked to The Cash Box as their 'working Bible' which, of course, was very gratifying, as it confirms the opinion we have had since receiving our first issue."

"The Coin Machines Merry-Go-Round"

Vol. 4, No. 29 April 13, 1943 Serial Number 81

PARKING PROFITS

It's too bad that operators can't handle parking meters on the same basis as they handle pins,slots,consoles and all other equipment. Report just published by the City of Newark,N.J. to the effect that after one year of operation the parking meters installed by the city not only paid off the $49,400.00 original cost, but, showed a net profit of $21,968. in addition. That's really sweet operating for Public Safety Director Keenan (who is in charge of the parking meters) and who is also the man who decided that pins and other equipment were "illegal". (Wonder how Keenan feels about coin operated equipment now? Perhaps some enterprising coin machine salesman should now sell him a route or two just in case he isn't appointed "Public Safety Director" after next elections.)

THE OUTDOORS SEASON

One of the most contrasting pictures is that of the coming outdoors season. Some believe that regardless of food and other rationing there will be a big exodus to the country resort spots this summer. Others are of the opinion that because of the national demand for a 48 hour work week,because of food shortages,victory gardens,and other factors, resort spots will actually prove to be only week-end places and that the real outdoors season will be closer to home than ever before. Regardless of what side of the fence you jump to, there is no doubt that there will be a greater demand for relaxation this summer than there has been for many years.Workers demand more relaxation and take it wherever and whenever they can. Therefore there will be no let down in play action this summer for most locations. This will be one outdoors season that will find the majority of the people enjoying themselves as best they can closer to their homes than ever before.

NEW ADDRESS ARRANGEMENT

With this issue you will note our new arrangement for firm names and addresses.This was the suggestion of Ed. Brown of Dallas, Tex., and met with the hearty approval of all the staff of The Cash Box. We hope that this meets with your approval, too.

OKLAHOMA PASSES BILL TO TAKE 10% OF GROSS FROM PHONOS

For weeks and weeks, for months, The Cash Box has been advising that all cities, counties , and states are hungrily seeking revenue,especially since the drop in auto license and other incomes and that the coin machines industry is the easiest of all for pickin's - for these politicos.

This past week the State of Oklahoma passed a bill which makes it mandatory for the phono operator to pay 10% of his gross collections. That's about the highest tax we've yet heard. The average coinman doesn't mind taxes. He likes Licenses. But, there is such a thing as being taxed out of business entirely. And, when one state does it, past experience has proven, other states follow.

The very fact that there is no National Board of Trade in existence in this industry to have been present at the meeting of the Oklahoma legislature to fight this bill, again demonstrates one of the glaring weaknesses of this industry. There is a greater need for a National Board of Trade for the coin machines industry today than ever before. This was originally proposed by The Cash Box and the Cash Box again appeals to all of its readers to make it possible as rapidly as they can.

Naturally the Oklahoma phono operator will simply first deduct the 10% at collection time (which means the cost to him will be 5%) and then split the balance on his regular percentage arrangement. But, do you have any idea what 10% of the gross will amount to? And, do you also now realize what other states will do when they see these figures made public by Oklahoma?

"BUSINESS WEEK" TELLS ALL

One of the most successful reasons for the continued great growth of The Cash Box is the fact that it is a CONFIDENTIAL medium for the members of the coin machines industry exclusively - and for no outsiders. The logicality of this policy becomes most strikingly apparent when you read the March 13th issue of Business Week magazine,page 72,which contains a story on this industry picked up by Business Week from one of this industry's publications.

Some of the information contained therein is absolutely incredible.Take this one item as an example,"Although there are some big operators, such as Automatic Canteen Co. of America,70% of the U.S.operators are one-man outfits.A year ago there were 30,000 part-timers and 25,000 full timers;now there are probably 75% as many." We KNOW that even in the flushest of all the flush days in this industry there were never at any one time 30,000 operators or anywhere near that figure and anyone who knows this industry will completely agree with us.

Other items are just as exaggerated.About one man taking care of from 80 to 100 phonos all by himself.Handling 100 cigarette machines all by his lonesome, etc.,etc. (Read the article yourself).But, this one is really a pip."The country's 7,000 operators (supposedly 7000 music operators) bought 45,000,000 records in '41." That means about 150 records per phono for 400,000 phonos as reported in Business Week, per year.

And while you're trying to digest these figures,just remember that any politico, state senator,city councilman or what have you,are going to clip this story and read it OUT LOUD to tax coin machines in their communities.(We wouldn't be surprised if those figures were quoted at the Oklahoma state legislature to help bring about that 10% gross tax).

We sincerely believe that after you read this item in Business Week that you,too, will become one of the staunchest boosters for The Cash Box and its policy of being a discreet and CONFIDENTIAL WEEKLY FOR THE COIN MACHINES INDUSTRY.

Odd Coins

2.Zombie	34.50	39.50
3.Zeta	12.50	25.00

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only oneprice appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1—Means price went up.
2—Means price went down.
3—Means this machine just added to list.
4—Means prices went up and down same week.
5—Means prices remained same as in past week's issue.
6—Means no prices quoted for this machine this week.
7—Means no prices quoted for this machine for past two weeks.
8—Means no prices quoted for this machine for past three weeks.
9—Means no prices quoted for this machine for past four weeks or longer.
